SEECOM is now accepting new hire and lateral applications to immediately fill a vacancy for full-time Public Safety Telecommunicator as well as maintain a list of qualified candidates through the end of 2023.

SEECOM is a consolidated 9-1-1 Emergency Communications Center (ECC) and employs 24 full-time Telecommunicators and 3 full-time Communications Supervisors, serving 13 agencies (*Algonquin Police, Algonquin-Lake in the Hills Fire, Cary Police, Crystal Lake Fire Rescue, Crystal Lake Park District Police, Crystal Lake Police, Huntley Fire, Huntley Police, Lake in the Hills Police, McHenry County College Police, Oakwood Hills Police in addition to MABAS Division 5 and Illinois Public Works Mutual Aid Network*, with a combined residential population of over 201,000.

Primary Purpose: The Public Safety Telecommunicator (PST) performs a variety of public safety communications functions including answering 9-1-1 calls, non-emergency calls, entering data into the computer aided dispatch system as well as other computer systems and transmitting information via radio systems, phone and computer. Using these tools, the PST coordinates information and activity among the general public, SEECOM public safety agencies, surrounding public safety agencies and ancillary service providers. The nature of the work ranges from extreme emergencies to the routine.

Additional Information is located on: [The Blue Line](#) & [Illinois APCO](#)
